Dear Librarian

Welcome to the 10th issue of the Lyell news update.

If you have any questions or feedback, we'd love to hear from you! Similarly, if you have any news for the next issue of this newsletter, [send it to us](#) and we'd be happy to share it.

Best wishes,

[Jenny Davey](#)

Marketing Co-ordinator

SWETs Update

As a subscriber to one or more of the Geological Society of London's publications please consider either using an alternative subscription agent for your 2015 subscriptions - or contact us directly. Dawn Angel at the Geological Society of London Publishing House can provide a renewal quotation by email on request. Please email us your SWETs reference number (if you have it) and we will transfer your subscription (email: sales@geolsoc.org.uk).

If you receive print copies via Swets consolidation then please provide us with your postal address so we can dispatch the journal/s directly to you. Please be aware that GSL journals (and the print version of part 1 of the Journal of the Geological Society)

- [Rock-Forming Minerals catalogue](#)
- [New and Recently published books](#)
- [Complete list of GSL publications](#)

will have a grace period to ensure continuity. If you have made any payments to SWETs for 2015 subscriptions for GSL journals then please [contact the Geological Society of London](#).

We would like to reassure you that we will do all we can to ensure unbroken supply and we will endeavour to support you during this difficult period. We will also be able to help with any other renewal queries you may have about individual journal title renewals.

The Geological Society of London will continue to supply 2014 subscriptions as normal. Please do let us know if you need any further information about this unfortunate situation or have any questions. We will be happy to help and advise.

Dates for your Diary

The Geological Society of London will be exhibiting at booth # 4 at the Charleston Conference, South Carolina on 5 November.

Meet our friendly North American representative Kim Belleau. Kim will be attending sessions and meeting with librarians on 6 & 7 November, if you would like to contact or arrange a meeting with Kim, you can reach her at Kim@pcgplus.com.

Save time and effort with JUSP

If you haven't already made use of the JUSP (Journal Usage Statistics Portal), then now is the time! JUSP will give you a simple way of analysing the value and impact of your electronic journal subscriptions through accurate and comparable usage statistics for multiple publishers in one place. You'll be able to access an introductory video which provides a short overview of JUSP, how to use the functionalities and the types of reports available at www.jusp.mimas.ac.uk/events-

training shortly.

Journal Impact Factors - the debate about metrics continues

In 2012 a group of editors and publishers of scholarly journals met to discuss the misuse of Impact Factors. The outcome was the San Francisco Declaration on Research Assessment (DORA): can be found [here](#).

Our President, David Manning has now signed the declaration on behalf of GSL. You will see that there are now other metrics alongside IF in the Lyell Collection and on our website. There are also metrics for the Special Publications series for the first time.

For more information on the metrics shown in the Lyell Collection visit the Geological Society webpage [here](#).

Winner of the Special Publication Archive announced!

The 2014 Special Library Association Conference saw attendees enter a Geological Society of London competition to win access to our Special Publication Archive. The winner of the competition was the University of New Hampshire. Both Thelma B. Thompson (Government Information and Maps librarian) and Emily Poworoznek (Engineering & Physical Sciences Librarian) at the University of New Hampshire are pleased to have the additional resource of the SP Archive as part of their library services offering.

New publications
