Dear Librarian

Welcome to the 6th issue of the Lyell news update.

Happy New Year to all our Lyell Collection subscribers!

If you have any questions or feedback, we'd love to hear from you! Similarly, if you have any news for the next issue of this newsletter, [send it to us](#) and we'd be happy to share it.

Best wishes,

[Anne Davenport](#)

Head of Sales, Marketing & Distribution

Lyell Collection 2014 - renewals

If you haven't renewed your Lyell Collection subscription, please contact your usual representative or speak to

Dawn Angel at our Publishing House on sales@geolsoc.org.uk or +44 (0)1225 445046.

COUNTER 4 Reports to be released 15th February

GSL journals are hosted by HighWire Press who are due to release COUNTER 4 REPORTS to libraries on 15th February.

New in this release are:

- Gold Open Access reports
- Access Denied reports
- Year of Publication (YOP) reports
- SUSHI performance guidelines
- Select time range for reports (month/year)

- [Rock-Forming Minerals catalogue](#)
- [New and Recently published books](#)
- [Complete list of GSL publications](#)

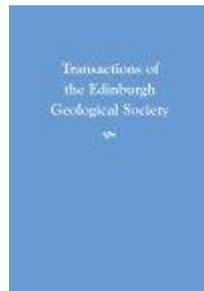

Useful links

- [Lyell FAQs](#)
- [Guide to Online First](#)
- [Guide to Open Access](#)
- [Online Bookshop](#)
- [Facebook](#)
- [Twitter](#)

For those of you participating in the JISC-funded [Journal Usage Statistics Portal \(JUSP\)](#) you can expect JUSP to begin providing COUNTER 4 reports after February 15th for GSL journals hosted by HighWire Press.

You can find out more about the reports available [directly from HighWire](#)

Transactions of the Edinburgh Geological Society now available on Lyell

These historical transactions, only available online through the Lyell Collection, give a flavour of the themes and ideas occupying the minds of the amateur geologists of the times. Published between 1868 and 1963 the Transactions cover almost 100 years with over 800 articles from key figures such as Sir Roderick Murchison, Patron of the Society; Charles W Peach, naturalist, who described fossil plants found in old red sandstone; Benjamin Neeve Peach who famously partnered John Horne in surveying the southern uplands and the north-west highlands of Scotland for the Geological Survey and Dame Maria Ogilvie Gordon the first woman to receive a Doctor of Science in Geology (1893), who in 1903 published papers from her work on the Tyrol, which showed her valuable contribution to the advancement of structural geology and palaeontology in the Alps.

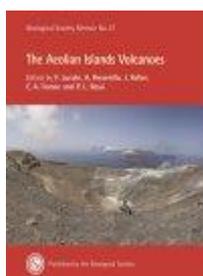

Complete print sets of the Transactions of the Edinburgh Geological Society are now rare but these online versions, are now available in the [Lyell Collection](#) for the first time. They are fascinating reading for geologists and scholars of the history of geology.

New publications

The final quarter of 2014 was a busy one for the GSL Publishing House. The following Special Publications are now available on the [Lyell Collection](#) and all publications are available to purchase in our [online bookshop](#).

You may have noticed that Special Publications are no longer sequential - your annual subscription allows online access to articles accepted for publication several months before the hardback book is printed. Your subscription offers readers access to the most up to date research and review material in our publishing schedule.

New: Memoir 37

M0037 The Aeolian Islands Volcanoes
Edited by F. Lucchi, A. Peccerillo, J. Keller,
C.A. Tranne & P.L. Rossi

This Memoir describes the stratigraphy, volcanology and petrology of the Aeolian Islands volcanoes. New geological maps (1:10 000) are presented along with bathymetric maps and an extended geochemical dataset.

[Lyell Collection](#)

New: SP384

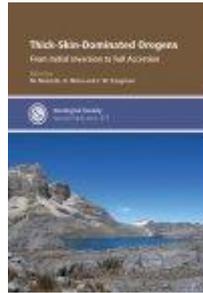

SP384 Environmental and Criminal Geoforensics
Edited by D. Pirrie, A. Ruffell and L.A. Dawson

Environmental and Criminal Geoforensics improves our understanding of how geological methods are used in serious crime investigations and also, increasingly, in identifying the location and source of environmental contaminants.

[Lyell Collection](#)

New: SP377

SP377 Thick-Skin-Dominated Orogens
Edited by M. Nemčok, A. Mora & J.W. Cosgrove

The volume studies the driving dynamic for thick-skin tectonics. It evaluates factors in control of the developing thick-skin architecture, beginning with worldwide examples and closing with robust coverage of the Northern Andes natural laboratory.

[Lyell Collection](#)

New: SP381

SP381 Antarctic Palaeoenvironments and Earth-Surface Processes

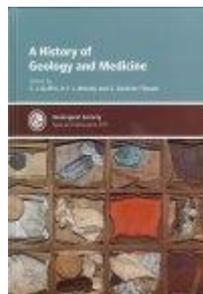

Edited by M.J. Hambrey, P.F. Barker, P.J. Barrett, V. Bowman, B. Davies, J.L. Smellie & M. Tranter

This volume provides fascinating insights concerning past and present environments in Antarctica going back nearly 400 million years. Original research contributions cover tectonic evolution, stratigraphy and contemporary surface processes.

[Lyell Collection](#)

New: SP375

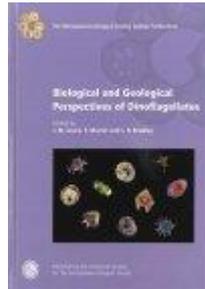

SP375 A History of Geology and Medicine
Edited by C.J. Duffin, R.T.J. Moody and C. Gardner-Thorpe

This unique volume traces the historical links between geology and medicine from geopharmaceuticals to the geological contributions of medical men, and from classical times to the early twentieth century.

[Lyell Collection](#)

New: TMS005

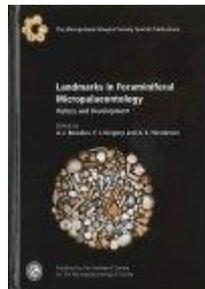

TMS005 Biological and Geological Perspectives of Dinoflagellates

Edited by F. Marret, J.M. Lewis & L.R. Bradley

This volume provides an overview of current research on fossil and modern dinoflagellates, as well as highlighting research areas for future collaboration, following the DINO9 International Conference in Liverpool.

[Online Bookshop](#)

New: TMS006

TMS006 Landmarks in Foraminiferal Micropalaeontology

Edited by A.J. Bowden, F.J. Gregory and A.S. Henderson

This volume provides a global snapshot of selected developments in the history of foraminiferal micropalaeontology from key workers to the historical use of foraminifera in industry, environmental and regional studies.

GSL supports access for libraries in developing countries through INASP

Thanks to further generous sponsorship by Schlumberger, NGOs and libraries at research and educational institutions in developing countries are eligible for free access to the Lyell Collection. The scheme is operated by the International Network for the Availability of Scientific Publications (INASP) an international development charity working with a global network of partners to improve access, production and use of research information and knowledge, so that countries are equipped to solve their development challenges. As part of this agreement, the GSL is committed to supporting Publishers for Development (PfD) and AuthorAID. More details below.

Publishers for Development PfD is an advocacy initiative from INASP and the Association of Commonwealth Universities designed to share information and ideas about ways publishers can contribute to the global research cycle.
Twitter: @pubsfordev

AuthorAID AuthorAID is a programme designed to support early careers researchers on their journey to publication, networking within the academic community and communicating their research.
