

Dear Librarian

Welcome to the first issue of the Lyell Collection News for 2017.

If you have any questions or feedback, we'd love to hear from you! Similarly, if you have any news for the next issue of this newsletter, [send it to us](#) and we'd be happy to share it.

Best wishes,
Jenny Davey
The Geological Society Publishing House

Reminder to renew subscription for 2017

Just a quick reminder to renew your Lyell Collection subscription for 2017. If you haven't yet renewed but would like to do so, email Dawn Angel and she will help you. If you have any questions at all about renewals do get in touch with Dawn or anyone at the Geological Society Publishing House in Bath, UK (details below) and we will be happy to help you.

The Geological Society Special Publications Online Archive - a journey through geological time

- The Online Archive includes 1-400 volumes published over the last 50 years
- Content covers a broad range of geoscience subjects
- Popular volumes are [Advances in the Study of Fractured Reservoirs](#), [Geology and Religion](#) and [Continent Formation Through Time](#)
- The complete Archive gives you the security of knowing your readers have free access to content forever, preserved in CLOCKSS
- Online Archives release valuable storage space
- Seamless access across the archive from volume 1 to 400

The Archives are available as
Archive 1 - Volumes 1 - 100
Archive 2 - Volumes 101 - 200
Archive 3 - Volumes 201 - 300
Archive 4 - Volumes 301 - 400
[Archive 400](#) - Volumes 1 - 400

To find out more or to add an archive to your subscription contact your usual representative or [contact Dawn Angel](#) at the Publishing House.

Welcome to our new subscribers

We're pleased to welcome our new and recent Lyell Collection subscribers:

Universita Degli Studi Di Genova
Peking University
University of Florida - Gainesville

Welcome to our new and recent Archive 1-400 subscriber:

Plate Tectonics at 50

2017 marks 50 years since the geophysicist Dan McKenzie published his seminal paper defining the principles of plate tectonics. The Geological Society Library is planning a number of activities to celebrate this important anniversary, including a special event, exhibition and the launch of a unique website resource.

The Quarterly Journal of Engineering Geology and Hydrogeology: There and Back in 50 Volumes

The first issue of the Quarterly Journal of Engineering Geology (QJEG) was published in 1967; the journal gained the strapline Encompassing Engineering Geology and Hydrogeology in 1979, and later became the Quarterly Journal of Engineering Geology and Hydrogeology (QJEGH). The papers published in the journal cover all aspects of engineering geological and hydrogeological research and practice, and include some important cases studies as well as more fundamental papers. As the journal approaches its 50th anniversary, both 50 years and 50 volumes, this paper reviews that first half-century and acts as an introduction to a following series of review papers that will deal with the contribution of QJEGH papers to each of several important disciplines within the general ambit of the journal...[read more](#)

NEW BOOK! Memoir 46: Atlas of Submarine Glacial Landforms: Modern, Quaternary and Ancient

Edited by J.A. Dowdeswell, M. Canals, M. Jakobsson, B.J. Todd, E.K. Dowdeswell & K. Hogan

New geophysical techniques (multibeam echo sounding and 3D seismics) have revolutionized high-resolution imaging of the modern seafloor and palaeo-shelf surfaces in Arctic and Antarctic waters, generating vast quantities of data and novel insights into sedimentary architecture and past environmental conditions. The Atlas of Submarine Glacial Landforms is a comprehensive and timely summary of the current state of knowledge of these high-latitude glacier-influenced systems.
