2013 Gracing Ends Soon!

Just a quick reminder that the gracing period for our online journals ends on 31st March. We have recently sent out renewal reminders by post and email. If you have received one but have already sent your subscription to your agent please [email Dawn Angel](#) so your access can be extended. If you have already emailed Dawn you don't need to contact her again.

If you haven't yet renewed but would like to do so, [email Dawn](#) and she will help you with your renewal.

If you have any questions at all about renewals do get in touch with Dawn or anyone at the

Geological Society Publishing House in Bath, UK (details below) and we will be happy to help you.

UKSG Bournemouth - will the sun shine?

I will be attending [UKSG in Bournemouth](#) on Monday 8th April. The Geological Society is represented in Europe and at UKSG by Accucoms' representative Shirley McDonald who will be based on the Accucoms booth, number 25. Please [email me](#) or [Shirley](#) if you would like to talk to us about the Lyell Collection or the Geological Society Special Publications. We look forward to meeting you.

Other Upcoming Conferences

Look out for a GSL representative at the following conferences:

- [EGU](#), Vienna, 7-12 April 2013
- [UKSG](#), Bournemouth, 8-10 April 2013
- [Association of College and Research Libraries conference](#), Indianapolis, 10-13 April

If you plan to attend any of the above and would like to arrange a meeting, please do [get in touch](#). Otherwise, just come along to our exhibition booth.

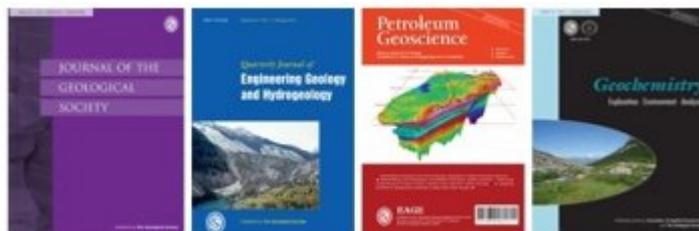

Online First for Journals

We have now added the Online First feature to four *journal* sites

on the Lyell Collection. Online First is now available for *Journal*

of the Geological Society, *Quarterly Journal of Engineering and Hydrogeology*, *Petroleum Geoscience* and *Geochemistry: Exploration, Environment, Analysis* as well as Special Publications.

Online First enables articles to appear online soon after they have been accepted for publication and ahead of the printed volume or issue.

All articles on the site are in their final PDF format apart from pagination, i.e. they have been accepted for publication, copyedited, typeset, proofed and corrected. The Online First release date serves as the official publication date. The publication date is provided in the citation line associated with the article.

To see the current Online First papers, visit the respective journal or Special Publication pages on the [Lyell Collection](#). The first Online First content is now available for [Quarterly Journal of Engineering Geology and Hydrogeology](#).

Usage statistics made simple

Are you looking for a simple way of analysing usage statistics? JUSP (Journal Usage Statistics Portal) is a Jisc-funded service that provides a “one-stop shop” for libraries to view, download and analyse journal usage reports from the Geological Society and other publishers.

Benefits of JUSP to libraries:

- Collect COUNTER-compliant usage data and generate reports
- View titles with high usage
- Analyse trends and usage over time
- Complete annual SCOUNL returns for titles provided by NESLI2 and other publishers
- Separate journal backfiles from current collections
- Include usage data from intermediaries and hosts
- Compare usage of different NESLI2 deals

For more information visit the [JUSP website](#).

HighWire Passes COUNTER audit

HighWire Press, the ePublishing hosts of the Geological Society's [Lyell Collection](#), is pleased to report their usage reporting system's compliance to Release 3 of the COUNTER Code of Practice for Journal and Book Reports.
